[News from the White Mountain Nature Center](#)

Your White Mountain Nature Center welcomed over 2,500 Guests this year!

The Nature Center held 14 hikes, and 16 Nature Presentations with a total attendance of 716 Guests. Our Annual Benefit Dinner served nearly 150 more.

Even though the Raptor Show is in its early stages, it brought in 1,700 Guests between July 1 and Oct 31. We plan to build out the bird facility and continue the FREE Training Exhibitions while work on the Amphitheater is underway.

This newsletter went from 171 'opens' for the first issue in May to 702 for the December 18th issue. We are now emailing nearly 1,400 Nature Center supporters every week - with many delightful comments coming in for each issue.

We also totally revamped our web site: www.wmnature.org and the web calendar is up to date. Also, we have redone our Facebook and Instagram pages.

In addition, we have replaced our aging audiovisual system with a state-of-the-art projector and incredible PA System, ensuring you can hear our presenters clearly! We also have background music via Bluetooth, Amazon Music, and YouTube video as well as a total setup for Zoom Meetings including camera and microphone plus full Microsoft Office capabilities including the latest version of PowerPoint.

In 2023 we are planning an aggressive campaign to expand programming, improve our facilities, recruit more Volunteers, and welcome even more Guests. Once the facilities are up-to-snuff, we will be offering room rentals at competitive prices, and allow groups to 'earn' room rental credits via earth-friendly actions.

We will also be upgrading our exhibits both inside and outside the Nature Center to encourage repeat visits by featuring more hand-on experiences, and if possible, we hope to reinstate youth summer camps plus astronomy and star-gazing evenings.

You can help by donating and becoming a Member. This year we will feature Members-Only Events, and send each member a personalized Member ID Card plus a Guest Pass to bring a friend to any of our informative/amazing programs.

Featuring Rob Bettaso,
Arizona Audubon Society
John Glitsos & Balinda Strosnider
Raptor Free Flight Program

Our first program of 2023 is in recognition of International Bird Day in January. It will feature Rob Bettaso, our resident birding expert from the Audubon Society and John Glitsos and Balinda Strosnider from our Raptor Free-Flight Program. Slide show, videos, refreshments, and three experts who can answer your questions! They are planning a surprise for those in attendance, so don't miss it!
