## Enrichment Club Was The Best Ever

The Enrichment Club gathering at the Nature Center was a lot of fun, with several new "members" helping us put down a bit of vino and make toys for the Raptors! New carpet made it feel cozy, and the music was great! LOTS of toys made :-)

**Owl pellet? What is the huge bone protruding from the left side?**

On the coldest of winter days, we toss the big raptors 1/4 of a rabbit and let them stay in their cozy enclosures. As you know, owls cough up a pellet with the fur and bones of their meals from the previous day. In this case, Funky's pellet had a huge rabbit bone in it. He had clearly bitten it in half!
