Growing Flowers

In The White Mountains

Part of the Ornamental Horticulture Series

PRESENTER:
Camilla Sexton

Owner of Ruby Jewel Flowers, Camilla runs this flower farm located in the White Mountains of Show Low, Arizona! She grows fresh flowers from April to October ranging from our fancy narcissus and tulips to dahlias and sunflowers. Her flowers are sold through CSA subscriptions, individual custom orders, and weddings. She strives to provide customers with the freshest, sustainably grown (no harmful chemicals so as to support pollinators, the soil, and wildlife), and most amazing flowers available in the White Mountains. Camilla takes pride in her flower farm, "It takes so much time and hard work, so much learning, so many failures and successes. So much love and positive energy goes into every flower I grow."

CLASS LOCATION:
White Mountain Nature Center
(425 N. Woodland Road, Lakeside)

July 13
10am-12pm
